

HUMAN BEHAVIOR COURSE 2004 TEXT & REQUIRED READINGS

REQUIRED COURSE READINGS ARE FROM:

Cohen BJ. *Theory and Practice of Psychiatry*. Oxford University Press, New York, NY; 2003. Students should review the assigned readings prior to attending lectures. This book is lent to each student for the duration of the course. Please don't mark in these books because they will be reused.

THE REFERENCE TEXT FOR THE COURSE IS:

Hales RE, Yudofsky SC, Editors. *Textbook of Clinical Psychiatry*, 4th Edition. American Psychiatric Press, Washington, DC; 2002. This book has been issued to students and comes with a CD-ROM version of the complete *Diagnostic & Statistical Manual, Fourth Edition (Text Revision)* (DSM-IV-TR). DSM-IV-TR is the principal diagnostic manual used in clinical psychiatry. Neither these two books are required reading for the Human Behavior Course. However they are useful reference texts that provide broader and more comprehensive coverage of psychiatry than the Cohen book.

NOTE: The Hales & Yudofsky chapter on normal development (chapter 2) is *required* reading for the normal development lectures in the course that are delivered by Dr. Gemelli. This is the only exception to the rule that Hales & Yudofsky is not required reading for the course.
